

G3ict's success is defined by collaboration...

“Alone we can do so little; together we can do so much.” Helen Keller

Institutions Advocacy

Addressing Information Communication Technologies (ICT) Countries' Inclusion Gaps through Innovative **Advocacy Solutions**.

- Advising Governments.
- Offering Capacity Building Programs.
- Benchmarking & Reporting Countries Inclusion Advancements.
- Providing Scholarships for Persons with Disabilities.

G3ict is an advocacy initiative launched in 2006 by the United Nations Global Alliance for ICT & Development to support the implications of the Convention on the Rights of Persons with Disabilities (CRPD).

Global Advisory

Addressing Information Communication Technologies (ICT) Organizations' Inclusion Gaps through Innovative **Advisory Solutions**.

- Offering Maturity Model Roadmaps.
- Providing Inclusion Criteria through a Disability-Led Implementation Tool.
- Partnering on Smart Cities' sustainable digital transformation work.
- Advising Cities on inclusive Procurement policies and plans.
- Upskilling & Certificating Employee's knowledge and skills.

Advisory offerings are supported through our approved subject matter experts and G3's global Country Advisory Network.

IAAP Education & Professional Certification

Addressing accessibility of services, products, and environments for people with disabilities through growing the accessibility professional by offering educational and professional certification solutions.

- Live and archived sector and topic-specific webinars.
- Accessibility Matters newsletters and podcasts.
- Accessibility Professionals Career Center and SME's Virtual Communities.
- Professional Certification.

G3 Supports the United Nations CRPD

Resources are joint efforts between G3ict & Strategic Partners

Digital Inclusion Maturity Model Program

G3ict deploys a Smart **Enterprise Maturity Model**® for companies and Cities. Each tool defines key performance indicators and metrics supporting accessibility and inclusion. G3's Maturity Model tools support the development of roadmaps and strategies to grow and mature commitment to and capabilities on inclusion and accessibility. With the support and strategic partnerships, this suite of maturity model tools is a great way to start or continue working towards inclusion.

The Navigator™ Criteria Tool

The Navigator is a Tool developed by a disability-led business inclusion implementation program. The Navigator is part of G3's Disability Inclusion & Accessibility Criteria (DI&AC) Program. The DI&AC Program is governed by a Disability Advocacy Steering Committee aiming to support organizational disability inclusion through tools, coaching, training, and a robust resource library.

DARE Index

The Digital Accessibility Rights Evaluation (DARE) Index 2020 is a benchmarking tool developed by G3ict for disability advocates, governments, civil society, international organizations, and policymakers to trace the country's progress in making ICT accessible in compliance with Article 9 of the CRPD. The Index documents the advances made by [137 countries](#) among the 182 States Parties to the CRPD.

DARE Scholarship Fund

DARE is a program dedicated to opening new potential for persons with disabilities who are interested in advocating for digital accessibility and getting certified as professionals.

Smart Cities for All (SC4A)

G3ict's SC4A initiative partners with leading organizations and companies to create and deploy the tools and strategies needed to build more inclusive Smart Cities. G3ict's advisory services rely on its [SC4A Digital Inclusion Maturity Model](#)® to unite stakeholders in developing comprehensive roadmaps and strategies to grow a city's capabilities for and commitment to digital inclusion.

E-Accessibility Toolkit for Persons with Disabilities

The Toolkit is designed to support member states in raising awareness and capacity building to address ICT needs for Persons with Disabilities. The Toolkit facilitates the development of successful policies and strategies and serves as a global electronic repository and platform for sharing experiences on best practices addressing disability issues in the ICT sector.
